

# Green-tree Topsoil

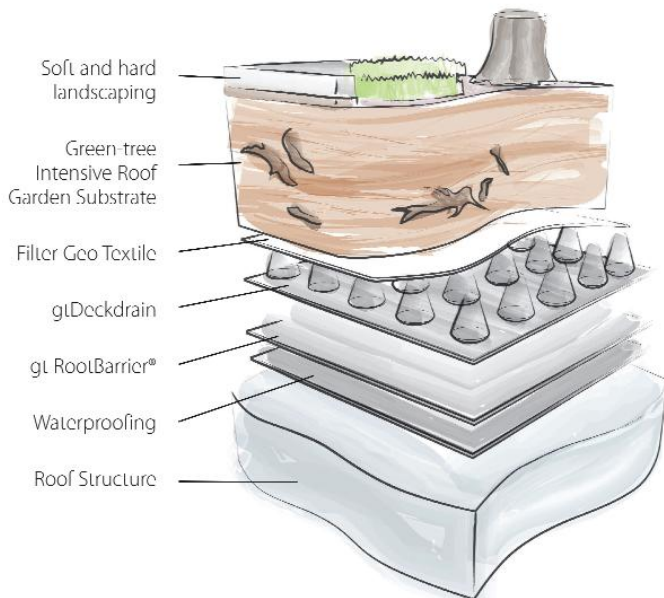

## Green-tree Roof Garden Substrate - Intensive

A blend of lightweight aggregate and the award winning Green-tree topsoil, the intensive roof garden growing media is ideal for green roof construction projects and particularly containerised planting. Lightweight in texture with good water-holding capacity, Green-tree Intensive Roof Garden Substrate promotes healthy plants and trees in a roof garden environment.

### Benefits:

- Good levels of fertility
- Good water holding properties
- Excellent aeration properties
- Lightweight compared to standard soils
- A typical pH of 8.4 - ideal for a wide range of plantings
- Typical bulk density at saturation point 1.22 tonnes/m<sup>3</sup>

### Build up of a Green Roof (Intensive)

### Applications:

- Containerised planting
- Soft landscaping
- Tree planting
- Decorative planting
- Allotment planting
